1. Lay 10" border fabric right side up on the work surface.
2. Lay main fabric of pillowcase right side up on top of the border fabric. Line up raw edges at top and sides.

3. Press the 3" accent fabric in half lengthwise, wrong side together, lay pressed 3" accent fabric on top of main fabric. Line up raw edges at top and sides.

4. Roll the main fabric from the bottom up to inside the 10" border fabric.
5. Bring the bottom edge of the 10" border fabric to the top edge of all fabrics. Line up raw edges at top and sides. Pin the raw edges across the top.

6. Stitch ½" seam along the pinned edge. You now have a tube of fabric. Turn the tube inside out and your pillowcase is almost finished.
7. Finish the side and bottom edges with a serger seam or use a French seam*. Put the wrong sides of the fabrics together and sew a scant ¼" seam on the side and along the bottom edge.

8. Turn the pillowcase inside out, so the right sides of the fabric are together. Sew a ⅜" - ½" seam down the side and along the bottom edge enclosing the raw edges.
9. Turn the pillowcase right side out, press.

*A French seam hides all the raw edges from showing inside your pillowcase.

Sweet Dreams!
